Projects

2023 June - August

Participated in **NOVO NORDISK Data Quest** [Prelims & Final Round1

- Comparing Effectiveness of 2 Drugs.
- Missing Value Analysis, EDA, Hypothesis Testing, Conclusion.

2023 September - Present

A Team Project on **Financial Time Series Data.**

2023 July

A Team Project on building a Classification Model to detect Cervical Cancer.

- Missing Value Analysis.
- Various Classification Model Building & Comparison.

2022 December

• EDA on World Population Dataset.

Certifications

- NOVO NORDISK Data Quest: Final Round Participation Certificate. [September, 2023]
- Data Analytics with Python: NPTEL Course Completion Certificate. [May, 2023]
- Data Analysis with Python Zero to Pandas: Certificate of Accomplishment. [December, 2022]

Area of Expertise

- Exploratory Data Analysis, Model Building & Statistical Analysis using **Python. (1.5+ years of experience)**
- Exploratory Data Analysis, Model Building & Statistical Analysis using **R.** (less than an year of experience)
- Basic to Intermediate Coding using JAVA. (3+ years of experience)
- Basic Excel.

Educational Qualifications

2019 - Present

• Integrated M.Sc Statistics, Pondicherry University.

2017 - 2019

• Higher Secondary School, ISC.

2017

Completed Secondary School, ICSE.
